Bozeman Botanicals: Distance & Details

An exploration into how art can define our relationship with florals, plants & landscapes, Bozeman Botanicals will feature plant studies from microscopic details to wide satellite landscapes & everything **in between**. With an emphasis on floral imagery, this exhibit will include the varying degree in which artists practice still life, Plein Air, Realism, Abstraction & more; navigating the influence of perspective on their relationships with nature.

Emphasis: Lively, colorful, spring, energetic florals (Montana specific plants encouraged!)

Bozeman Botanicals will be from **May 9th – July 19th**, with an **opening reception from 5-7pm on May 9th**. We will begin accepting work at the museum on April 28th & hanging between April 30th -May 3rd. These can be shipped (UPS or Fedex work best in Bozeman due to staffing shortages at USPS) or dropped off. Work can be for sale but this is not a requirement to show with us. I will provide a loan agreement or commission contract depending on which you will need. Commissions are split 60% to artists & 40% to the museum. Please share images of up to 3 pieces you would like to be included & provide names, prices, & dimensions. We will accept & display between 1-3 of these. Please email all materials to Emlyn@bozemanartmuseum.org

- **Exhibit open May 9th – July 19th**
